

# DRIVER PERFORMANCE COACHING ONLINE

Elite level driver training programme

# INTRO

This document has been created to introduce a comprehensive coaching service that helps you improve your results and teaches you the personal skills required to succeed as a race driver.

As a driver on this programme you will receive 1:1 remote coaching with motorsport's leading driver performance coach Enzo Mucci.

Your bespoke programme is designed to be as hands-on as possible without Enzo physically being with you at the track, this will ensure progress and accountability.

This coaching service removes all excuses.

**"You don't get many chances to shine in the expensive world of motorsport so you must have structure and personally 'tool up' if you want to stand out"**

ENZO MUCCI

# MEET ENZO

Since the 1990's Enzo has coached race drivers in most categories including F1, IndyCar, Le Mans and NASCAR. He has also worked with many manufacturers and F1 young driver programmes.

After initially entering the sport as a driver, Enzo soon discovered his true passion for mental performance and coaching. Over the years he has developed his own science for achievement in motorsport which not only teaches drivers how to drive better but also teaches the personal skills required to create a career.

Due to Enzo working with or alongside some of the fastest drivers in the sport, he went on to develop his own coaching principles/systems that have helped drivers no matter what level they are at.

**"I have been lucky enough to work with drivers who have collectively achieved over 1000 race wins, it's time to teach what these drivers have taught me"**

ENZO MUCCI

# PROGRESS IS INEVITABLE

There is a science to winning in motorsport that we will implement into your training but your coaching must also be designed with your goals and current level in mind. In doing this we will create a bespoke programme that will ensure progress.

Here are some of the reasons why drivers use this programme:

- 🏆 To improve their results
- 🏆 For better event preparation
- 🏆 To increase self belief/confidence
- 🏆 To mentally perform at a higher level
- 🏆 To perform better under pressure
- 🏆 To regain their previous form
- 🏆 To stand out more in their sport
- 🏆 To improve their race craft

Being a champion requires a level of self mastery that goes beyond the cockpit. It's Enzo's mission to help you perform better as an individual so you can apply these skills to your racing and to your life.

**"With the structured approach and training techniques that we use here, it's virtually impossible for you to not improve."**

ENZO MUCCI

# COACHING STRUCTURE

Your coaching journey will start with an initial assessment with Enzo on the key performance areas (driving, mental, work ethic, career skills, etc) and from this we will build your personalised training plan.

Your weekly or bi-weekly coaching sessions will then be used for the following:

- 🏁 **Race/Test Event Preparation**
- 🏁 **Race/Test Event Debriefs**
- 🏁 **Mental Training via Zoom**
- 🏁 **Mental Training using Home Simulator**
- 🏁 **Race Craft Practice using Simulator/Discord**
- 🏁 **Learning Motorsport Specific Personal Skills (on and off track topics)**
- 🏁 **Performance Reviews**
- 🏁 **Mock Race Meetings (with other drivers or AI)**

All of your training and race results will be recorded and monitored using our online software.

For those on the Full Remote Coaching Plan, Enzo will be on call to during race and test days. This is used to keep you on top form during these events.
